

Project Title	Funding	Institution
1/3-Atomoxetine placebo and parent training in autism	\$272,700	University of Pittsburgh
1/3 CBT for anxiety disorders in autism: Adapting treatment for adolescents	\$285,075	University of California, Los Angeles
1/3-Multisite RCT of early intervention for spoken communication in autism	\$547,162	University of California, Los Angeles
2/3-Atomoxetine placebo and parent training in autism	\$361,873	Ohio State University
2/3 CBT for anxiety disorders in autism: Adapting treatment for adolescents	\$236,579	University of South Florida
2/3-Multisite RCT of early intervention for spoken communication in autism	\$395,531	University of Rochester
3/3-Atomoxetine placebo and parent training in autism	\$277,198	University of Rochester
3/3 CBT for anxiety disorders in autism: Adapting treatment for adolescents	\$41,570	University of Miami
3/3-Multisite RCT of early Intervention for spoken communication in autism	\$815,668	Kennedy Krieger Institute
ACE Center: Risk and protective factors in the development of associated symptoms in autism	\$169,876	University of Washington
ACE Network: Early pharmacotherapy guided by biomarkers in autism	\$1,000,000	Wayne State University
A randomized clinical trial of cognitive enhancement therapy for adults with autism spectrum disorders	\$1,412,388	University of Pittsburgh
A sibling mediated imitation intervention for young children with autism	\$0	Michigan State University
Biomarkers in Autism of Aripiprazole and Risperidone Treatment (BAART)	\$619,865	Medical University of South Carolina
Early intervention for children screened positive for autism by the First Year Inventory	\$0	University of North Carolina at Chapel Hill
Enhancing inter-subjectivity in infants at high risk for autism	\$0	IWK Health Centre/Dalhousie University; University of Toronto; University of Alberta; The Hospital for Sick Children
Enhancing understanding and use of conversational rules in school-aged speakers with autism spectrum disorders	\$0	Yale University
Evaluating behavioral and neural effects of social skills intervention for school-age children with autism spectrum disorders	\$0	Mount Sinai School of Medicine
Evidence-based cognitive rehabilitation to improve functional outcomes for young adults with autism spectrum disorders	\$100,000	University of Pittsburgh
HCC: Collaborative research: Social-emotional technologies for autism spectrum disorders	\$46,087	The Groden Center, Inc.
HCC: Collaborative research: Social-emotional technologies for autism spectrum disorders	\$175,362	Massachusetts Institute of Technology
Improving synchronization and functional connectivity in autism spectrum disorders through plasticity-induced rehabilitation training	\$0	University of California, San Diego
Integrated play groups: Promoting social communication and symbolic play with peers across settings in children with autism	\$127,497	San Francisco State University
Neural and behavioral outcomes of social skills groups in children with ASD	\$290,251	Mount Sinai School of Medicine
Neurocognitive markers of response to treatment in autism	\$76,500	University of California, Davis
Predictors of effects of propranolol on language & connectivity in autism	\$184,288	University of Missouri
Prelinguistic symptoms of autism spectrum disorders in infancy	\$30,000	University of California, Los Angeles
Social cognition and interaction training for adolescents with high functioning autism	\$0	University of North Carolina at Chapel Hill

Project Title	Funding	Institution
The comparison of three behavioral therapy approaches for children with autism	\$50,664	University of Rhode Island
The mirror neuron system in children with autism	\$59,078	University of Washington
